

# MUST READ!

## WE ARE HIRING ONE SPECIAL INDIVIDUAL TO LEAD OUR TEAMS IN OUR TREE TRIMMING & REMOVALS DIVISION!

Let's carefully define this role:

We only want to talk if you are management-minded and love trees.

**ONE SPECIAL INDIVIDUAL** = Geeks out when talking trees and, more importantly, is crazy about company growth!

Yes, it's certainly all about the trees, but we are on a mission here, and that's to lead the market in our region, so this person will be just as business-minded as they are an ISA Certified Arborist!

**Lead our teams** = We are looking for a Manager, not a laborer. Of course, you've put your time in and know every nuance up in the canopy, but we have teams of Arborists that need a LEADER! Topics such as Safety, Skill Development, Productivity, Efficiencies, Strategy, Planning - this is the language you'll be using!

**Trimming & Removals** = We call it our Maintenance division. The way we see it, we trim trees to keep them healthy. It's simply the 3rd part of our business model along with our Plant Health Care & Tree Installation divisions.

**A day in the life** = Safety first, strategizing with upper management, and training efficiencies will be what you'll be doing in this role. 60% is in the field, developing & training teams 'hands-on,' and the other 40% is strategizing, scheduling, and planning.
